Welcome to the world of WIŚNIOWSKI **fences**

WIŚNIOWSKI fence systems are a complete solution for your home. Here you will find your dream designs, functional accessories, durable colours, the best materials and – most importantly – complete system-based solutions.

Why is this so important? WIŚNIOWSKI fences include entrance gates, wickets, spans, posts, and mesh panels. Use all these elements to create a complete design for your home.

Explore the possibilities offered by WIŚNIOWSKI fence systems. Invest in a solution that will last for decades to come.

10 YEAR

Corrosion protection warranty

CE certificate – **safety**

Part of a **complete system**

Matching **garage doors, windows, and doors**

Made **of steel** or **aluminium**

Solutions for **safety**

INFINITY

A design inspired by palisade fences: light lines that clearly separate your private space. Thanks to its special structure, you can expand your INFINITY fence indefinitely – without mounting posts. You can also install the fence to a wall. Match it to your home!

INFINITY AW.10.130

Corrosion protection for **10 years**

Double-welded **structure**

Can be reinforced with a **connector**

Broad **arrangement** possibilities

The latest **trend**

Uniqueness without limits

- 4 models.
- An uninterrupted line of segments without fence posts. Can be installed on a concrete foundation or below ground line.
- The INFINITY includes fence segments. Add a matching entrance gate and wicket. See how you can combine them into one fence system.

Choose your preferred **level of transparency**

CE certificate – **safety**

Sliding gates

What kind of property? A sliding gate needs more space on the sides of the entrance, which is why it will be perfect for properties with a wide front.

Single- and double-leaf gates

What kind of property? They don't need space on the sides, but take up more space between the entrance and the garage. This is why they are recommended for narrow, but relatively long driveways.

Folding gates

What kind of property? They combine the advantages of sliding and double-leaf gates. Thanks to their structure, they don't take up too much space. Perfect for narrow and short driveways.

Gates on wheels

What kind of property? They do not require space in front of or behind the driveway, and thanks to the elimination of the "tail," they also require very little side space. Ideal for smaller properties and for those who appreciate unconventional solutions.

Colours. Textures

Colour is the first feature our senses react to. We made sure that each of our customers can find the exact colour they are looking for. Our gates can be manufactured in RAL palette colours and the unique HOME INCLUSIVE colours – together with our range of textures and additional decorative elements, this gives you hundreds of options for a tailored solution.

Live more comfortably with **smartCONNECTED**

TaHoma
– your smart home

The io-homecontrol® system with radio transmission makes it possible to wirelessly connect the METRO Smart io and MOTO io drive units to the smart home controlled by Somfy's TaHoma Switch central control unit. Building a comprehensive smart home provides a number of benefits and additional features that enhance your comfort every single day. The app gives you constant access to the most important functions of the elements of your home

Check what you can gain when you choose Tahoma switch

The **WIŚNIOWSKI Connected** app
– new quality as standard

Discover the possibilities of a smart home with WIŚNIOWSKI – with SMART products as standard! Control your entrance gate, front door, garage door, and roller shutters, manage user access, and monitor your home's security – all within one app. No central control unit, no remote – just one click! Experience freedom with WIŚNIOWSKI Connected with a free app.

Check what you can gain when you choose WIŚNIOWSKI Connected

Choose your path to a smart home

State-of-the-art WIŚNIOWSKI products will accompany you along the way. Smart home systems can be expanded at will, and you can ensure full control over every part of your property. Control, share access, grant permissions, and build scenarios that will make your day smarter!

MultiBox – your private parcel pick-up station

A fence does not only protect you from the outside world, but also connects you to it! The MultiBox is your private parcel pick-up station that will receive your parcel even when you aren't home. Discover the multitude of options it offers.

Compatible **with all fence models**

Control it with **a smartphone**

Standard **with a door phone**

Popular **parcel dimensions**

Receive your parcels **no matter where you are**

MultiBox post versions

The MultiBox post is available with 1, 2, and 3 letter slots – with independent access from the property side and LED lighting. Additionally, a version featuring a secure package slot integrated with the letter slot is available.

Discover more details on the MultiBox post

Panel fences.
Perfectly versatile

WIŚNIOWSKI mesh panel systems are a solution used in places where durability, high quality, and safety are crucial. They can be used in urban areas, industrial areas, as perimeter protection in recreational areas or as a complement to a typical residential fence.

Panel fences include mesh panels, entrance gates, and wickets. Create complete fences and, thanks to original installation systems, get a guarantee of security and durability.

Together or separate? Mesh panels are increasingly used as additions to classic residential fences – for instance only on the sides and back of the property. Economical, safe, and quick.

2D mesh panels

VEGA 2D

VEGA 2D SUPER

Panel without ribs reinforced with a double wire with a larger gauge.

3D mesh panels

VEGA B

VEGA B Light

Panels with ribs ensure maximum resistance to deformation.

The method of corrosion protection and the type of material used are responsible for the quality of the mesh panels. WIŚNIOWSKI panels are manufactured using a process that minimizes the occurrence of corrosion for many years and additionally guarantees fence robustness. **Check the quality of the panels before you choose yours.**
